IDENTIFY CONCERNS

Our main concern is that people don't know where their food is actually coming from. Also they don't know how to prepare a fish after it's caught.

SET A GOAL

Our goal is to educate others on how to catch, clean, and cook a fish.

FORM A PLAN (WHO, WHAT, WHEN, WHERE, HOW, COST, RESOURCES, AND EVALUATION)

Who: Kaiya Smith, Logan Peery, Shaylee Wohlers

What: Instructional Video Design

When: October 2023-January 2024

Where: Osceola Public Schools

How: Catch a fish. After that we will teach you how to clean a fish and get it ready to cook. Then we will teach you how to get your fryer going. Finally we will teach you how to properly cook and eat your fish.

Cost: \$43.77

Resources: <https://www.doitbest.com/> <https://www.walmart.com/> <https://www.amazon.com/>

<https://www.dollargeneral.com/>

Evaluation: We feel this plan adequately helps us to teach others on how to catch, cook, and clean fish.

ACT

Set up your pole, and bait your hook with a worm.

Grab your pole and place your finger on the line and flip your barrel.

Cast hook and bait into the body of water you're fishing in.

Once you see your bobber go under the water you yank your pole a little and start reeling

Keep reeling until the fish comes out of the water.

Pick up your fish then take the hook out of its mouth, sometimes you have to take a pair of pliers to get it out.

Now you have caught your fish!

Gather all ingredients and cooking tools

Clean fish and prepare batter

Heat up oil and cook fish

Eat Fish!

FOLLOW UP

Throughout this project we have learned how to work together as a team. How to teach others how to catch, clean, and cook a fish. We also learned how to create an Instructional Video. If we were to do this project again we would definitely have more professional recording equipment. We would also start earlier in the year so we can have more time to catch the best fish possible. We did enjoy this project but would recommend catching more than 1 fish. The fish was great and we wanted more to eat!
